CHAKIR SAYYOURI

Work study data operator

Second-year Data Science undergraduate student, with a strong interest in data analysis and data-driven decision-making. I am currently seeking an intensive summer internship as a Data Scientist in England. I have solid experience with data processing tools, programming languages such as Python and SQL, and I am able to model and visualize complex information effectively.

EDUCATION

IUT PARIS RIVES DE SEINE

BUT Science des données -
2024 - 2027

SKILLS

BAFA - 2024

LANGUAGES:

- English- B2
- Spanish- C1
- Arabic- A1

SOFT SKILLS :

- Precision/Rigour
- Team Spirit

PROFESSIONAL EXPERIENCE

DATA OPERATOR APPRENTICE

Médiamétrie | 2025 - present

- Receive, process and clean international TV audience data
- Enrich programme metadata using internal data-processing tools
- Ensure data quality, consistency and reliability across datasets
- Work autonomously while collaborating with the IT team and data analysts
- Demonstrate strong attention to detail, accuracy and organisational skills

FREELANCE PROJECTS

Freelance - Full-stack Web Developer | 2026

- Gather and analyse client requirements to design tailored web solutions
- Develop a full web application, covering both front-end and back-end components
- Build responsive and user-friendly interfaces using React
- Implement server-side features and APIs with Node.js
- Ensure code quality, performance and on-time project delivery
- Maintain clear communication with the client to ensure alignment and satisfaction

PERSONAL INTERESTS

Music Production & Artistic Development
| Mal Luné Music - Paris

- Actively involved in music creation, including composition, recording, and performance.
- Collaborated with producers and artists, gaining experience in creative workflows, project management, and meeting production deadlines.
- Developed strong adaptability, creativity, and communication skills through artistic projects.

Travel & Cultural Discovery
| Around the world

- Passionate about traveling and discovering new cultures, with a strong interest in international environments.
- Visited several countries including the United States, Malaysia, Turkey, Morocco, Canada, the United Arab Emirates, Saudi Arabia, the United Kingdom, and most neighbouring European countries.
- Particularly inspired by Malaysia for its cultural diversity and atmosphere.
- Traveling has strengthened my open-mindedness, adaptability, and ability to understand different perspectives.
